

Philad^a 7th mo 1st 1845

Dear friend

Your very interesting letter of the
5th June came duly to hand by the
package standard. I do not know
how to thank you enough for these
epistles, they give me so much better
insight into matters than articles
prepared for the press. They give the
particulars too of subjects but rarely
printed at in our journals. I beg of
you to continue them, write as much
as you have time & inclination to
direct it to me.

In a few days I hope to have some
samples for you will send them as
soon as they can be prepared.

We are all in fine spirits here
Remember me to your family & your father & sister
Ever Dear

Did W. L. G. ever get a letter from me about matters
for a tract?
I do send
him, to give
me.

M. W. Chapman
